956-4280 by Friday, March 11, 2016.

Minh-Anh Nguyen, PhD is Head of Research and International Cooperation Office of National College of Education in Ho Chi Minh City, Vietnam. After spending 10 years

abroad in Russia, Israel and Denmark, Dr. Minh-Anh has finally landed in the Creative Arts Therapies Department, Drexel University, Philadelphia, PA, to work on his research as a Fulbright Visiting Scholar. Dr. Minh-Anh's research of "Embedding Art Psychotherapy into a Kindergarten Curriculum to Promote Positive Relationships between Kindergarteners and their Parents" encompasses his professional interests in art therapy and family relationships.

*The Outreach Lecturing Fund (OLF) allows Fulbright Visiting Scholars who are currently in the United States to travel to other higher education institutions across the country. Each year some 800 faculty and professionals from around the world receive Fulbright Scholar grants for advanced research and university lecturing. The purpose of the OLF is to allow these scholars to share their specific research interests, speak on the history and culture of their home country, exchange ideas with U.S. students, faculty and community organizations, become better acquainted with U.S. higher education, and create linkages between their home and host institutions and the Council for International Exchange of Scholars (CIES).*
