

# CALL FOR PAPERS

## GO SOUTH 2019

### ANNUAL CONVENTION ON THE GLOBAL SOUTH

### Rethinking International Relations in the Era of Technological Disruption

Industry 4.0 touches more than the aspect of technology that it develops the discourses on many objects ranged from machine to human, state to individuals, norms to traditions, and everything in between. This raises a question on how Industry 4.0 would challenge the nature of international relations, particularly from the perspective of the Global South.

Cordially invites you to submit your paper discussing the following **themes**:

01. **Global Politics and Security**
02. **Peace and Conflict Studies**
03. **International Political Economy and Development**
